# BUDGET

Most importantly, we were able to budget for all of our current positions + an additional general education paraprofessional. That accounts for 98-99% of our budget.

- Our school based budget's discretionary pot is even smaller than this year's, with a vast majority of that (roughly 80%) going to student supplies (which includes copy paper). There will not be a lot of money for extra classroom supplies, so you may want to get started on Donors Choose.
- Our Community School budget increased, but not by much (approx \$9,500). We purposefully placed money in areas that provide some flexibility. We hope to be able to use Community School funds to focus on during school and after school academic interventions.
